

Material Safety Data Sheet Fax On-Request Program

As you know, the nature of hazardous materials compliance is rapidly changing! Today, workplace and environmental safety issues are of paramount importance to any business—whether you are retail or service oriented.

Managing a successful compliance program “in-house” can, at times, be a daunting task. Outsourcing your expertise would save time, be cost effective, and provide the necessary information for a comprehensive hazard communication program.

Professional Emergency Resource Services (PERS) is currently the MSDS provider for many hardware concerns and others in business and industry. We have simplified the MSDS compliance programs for these companies and we can provide the same opportunity for your business.

To enroll, please complete this form and fax to PERS at **(801) 629-0680**. Should you have questions or require additional information, contact PERS by calling 1-888-673-7329.

YES, please enroll our location in the PERS MSDS Fax On-Request Program
